Date - 17 June 2025

## "Prioritize your Work"

A well-educated, intelligent and courageous person prioritize their work over financial gain. Their main objective is to excel in their profession, not just earn. For example a soldier main mission of his life is to win battle not to pay for his fighting. A preacher winning. A preacher's main objective of his life is to preach and deliver a message. Same with doctors, good doctors desire to heal the sick. ~~Not~~ A good professional's focus is on delivering quality, not just collecting fees.
