

Topic. Climate change.

Climate change is big issue for every country. Temperature is rising day by day. It's very dangerous for living every areas after the rain be flood. Recently 2022 Pakistan ~~had almost~~ had been almost covered in flood. Every rain flood to be in Pakistan. Many people migrated to save place but unfortunately save places also in flood. Many animals died in flood. Billion of losses in flood. All people cut the trees and construct the building. Pakistan and other countries should control carbon emission and all combustion ~~will~~ be convert in renewable energy. Every vehicle industries and electricity generator should be renewable energy. Pakistan must more plantation more forestation and then control temperature.
