Writing Practice:

In a recent development, Trump issued an order of increasing tariffs on steel and aluminium imports to the USA. The dramatic increase from 25% to 50% on steel and aluminium imports, increased the already volatile situation of global market.

Since Trump's second presidency, ~~various~~ a range of taxes had strained the United States relations to its allies. The experts have shown reservations on Trump's fluctuating decisions.

Trump administration ~~claims~~ states, that their policies are indispensable for the development of American market. By increasing tariffs on imports, the locally manufacturing companies based in the US will flourish, making the US economy strong.

Whether this order is temporary or a permanent one is yet to be known, however, it certainly will have an impact on Pakistan's economy. Though it creates challenges for Pakistani exports, ~~as a~~ this can act as an oppertunity for Pakistan to diversify their export market.

77% of Pakistan's export market relies on textile sector. This can help Pakistan to navigate Trump's fluctuating tariffs orders by focusing on fostering economic and trade agreements with the US through textile industry. Pakistan is relatively less impacted as compared to other countries because of its strategic dialogues with the US on imposition of reciprocal tariffs.
