Respected Sir! I have evaluated few of my essays. The only suggestion I get is that it is not comprehensive, although I explore my essay topic from different dimensions. Sir, I'm very concerned about it as I can't amend my mistakes without discussing it with a teacher. In online evaluation, we don't have the opportunity to discuss how to improve our mistakes in an essay once it is being checked. Sir could you please give me your number so that I can better understand where the problem lies.
With high regards!
Nida Nasir
