

"Our Scientific power has outrun our spiritual power, we have guided missiles and misguided men."

1, Introduction

2, How our scientific power has outrun our spiritual power?

i) Technological advancement has increased destructive capabilities

* [Nuclear weapons, Use of AI in modern warfare]

ii) Acquisition of advance weapon technology has undermined human development

* [Case study of Pakistan]

iii, Scientific advancement are often driven by

profit rather than
ethical consideration

* [unavailability of COVID-19
vaccines for poor nations]

(iv) Scientific innovation
in biotechnology raises
profound ethical dilemmas

* [CRISPR - Gene Editing
Technology]

Xiv) Technological manipulation
in biotechnology raises
profound ethical considerations

(v) Technological manipulation
of truth and reality fuels
distrust and division

* [Use of Deepfake
technology]

(vi) Global warming
indicates the lack
of moral responsibility
to reduce industrial
emissions

* [Use of fossil fuel
for profit maximization]

- (vii) Funding for STEM is prioritized over ethics and humanities
- (viii) AI and social media demonstrate the ethical vacuum in scientific innovation
[MIT study of 2023 on the spread of fake news]
- (ix) Prevalence of mental health issues due to overuse of technology
- (x) Lack of real emotional intimacy despite increased digital connections
* [Harvard study of Adult Development 2023]

3- Conclusion
