عام لوگوں کا خیال ہے کہ ملک کے قانون اور فرد
کی آزادی ایک دوسرے کی ضد ہوتے ہیں۔ غلط
یہ بات غلط معلوم نہیں ہوتی۔ ہر قانون شہریوں
پر کوئی نہ کوئی پابندی عائد کرتا ہے اگر ملک میں قوانین
کے تصور زیادہ ہوتے تو مجموعی پابندیاں بھی زیادہ
ہوتی ہیں۔ زیادہ پابندیوں سے فرد کی آزادی
ان کے بوجھ تلے دب کر رہ جاتی ہے۔ اس کے برعکس

قوانین کی تعداد کم ہو تو شہریوں کی آزادی
کا دائرہ وسیع ہوتا ہے۔

It is generally perceived ^{antagonistic to} that State's
laws and individual's freedom are
anti-dependent on each other.

Apparently, it does not ^{seem} look wrong.

Every law ^{puts} certain restriction
on the Citizens. If State has

more number of laws then
collectively ^{there are more restrictions} restriction are also

more. Individual's freedom come
^{trampled} under the burden of more

restriction. On the contrary,
if number of laws is less
then citizens liberty increases.

Comprehension-2009

Answer-1

Q: What disadvantages will
a man without task
suffer?

You are allowed to submit only one question in
one pdf. The remaining questions may be
submitted in separate pdfs.

A man without any task
will suffer in many ways.

As he has nothing to
do, he will feel

overwhelmed with disappointments. He will spend his time in vain regrets and at the end he will gain nothing. Eventually, he will become slave to his ennui, which is worse.

Q.2 Why is even disagreeable task considered better than none?

Answer

Even a disagreeable task is better than none because the man who does a task which is disagreeable to him will live a more happy life than the one who has no task at all. By working and doing a certain task the man will be a more contented citizen and a valuable one but without any task he will suffer because of his idleness.

Q.3

In what ways is a man with some task the better for it?

Answer.

A man who has some work and if the work suits his powers will live a long happy life if he works hard. If he does a useful task and uses his full potential then he must be thankful because this is a great blessing for him. He will live a contented and valuable life. So the work which man does is better for him in many ways.

Human Evolution and Scientific Discoveries

Scientists and psychologists have adopted Darwin's theory of evolution which emphasized on physical force neglecting culture of mind. While psychologists stressed on psyche ignoring man's physical self and outside world. This resulted in an economy based civilization. By using mind and powers man has introduced philosophies of Capitalism and Communism depriving himself from humanity. Today man is advance in technology but culturally still backward ^{while}. Scientifically, he has discovered natural forces and surrendered them to politicians, pushing humanity towards fear and leading himself towards destruction with his own inventions.

This irrationality ^{has} created concern about role of different players directing man's history and future. This reveals that "relationship between universe, life and man has not been studied collectively."
