4. Solutions

- 4.1 Improve job opportunities
- 4.2 Good/handsom salary package
- 4.3 Political stability
- 4.4 Increase fund
- 4.5 Return Program & Incentives

The Essay:-

A nation that cannot retain its best mind is a nation that limits its own future. Brain Drain refers to the emigration of skilled and educated persons from their home country to foreign land in search of better job opportunities. Unfortunately, Pakistan is also facing this problem. In 2022, approximately 765,000 Pakistanis left the country for job opportunities (Bureau Emigration), which is a huge loss of skilled persons including doctors, engineers, scientists, & IT specialists. Brain drain occurred due to many multiple causes i.e. job insecurity, lack of job opportunities, political instability, research limitations, which has led to a huge loss of talent and has a negative impact on the country's development. This can be solved by/through providing incentives.
