Topic: "Climate change in Pakistan:  
Causes & Consequences"

## Outlines:

### ① Introduction

1.1 Hook.

1.2 Background Information

1.3. Thesis Statement: There

are many causes of climate change in Pakistan like deforestation, automobile vehicles, Industrialization, Expansion of cities where consequences are heatwave, changing pattern and time span of seasons, Health issues Economic and agricultural losses.

### ② Main Body.

#### Causes of climate change:

2.1 Deforestation.

2.1.1 Wildfire

2.1.2 Urbanization.

2.1.3 Illegal logging

2.2. Automobile

2.2.1. Green house gas Emission

3.5. Extreme

2.3. Industrialization

2.3.1. Fossil Fuel combustion.

3.5.1

3.5.2

2.3.2. Industrial processes.

3.5.3

2.3.3. Mining.

3.5.4

2.4. Expansion of cities.

You k merge this point  
in deforestation as well

③ Consequences of climate change.

3.1. Heatwave.

In the 202

was preparing

3.2. Changing time span of seasons

her school

3.3. Health issues

Her books w

3.3.1. Asthma

her exam

ncers a

events, a

and a

### 3.5. Extreme weather events

#### 3.5.1 Floods

#### 3.5.2 Glacial lake Outburst flood (GLOFs)

#### 3.5.3 Unpredictable Monsoon

#### 3.5.4 Dust storm and Thunder storms

#### 3.5.5 Droughts in Thar and Cholistan

CO

### The Essay:

In the 2022 floods, Mehak from Swat was preparing for her FSC exams when her school turned into a flood shelter. Her books were ruined and she missed her exams. This is how climate change affected life at many levels in

Pakistan, from ~~economic~~ educational to mental level. There are many causes of climate change in Pakistan like deforestation, automobile vehicles, industrialization, Expansion of cities where as consequences are heatwave, Extreme weather events, Economical issues, Health issues and agricultural losses.

**Not a well integrated introduction**  
**Length of intro is too short**  
**Outline is fine but you may add recommendation**  
**Write all points of outline in a summarized manner**
