Introduction:-

“Marriage is companionship between two persons to complete each other in every aspect, proposed during early adulthood to uphold moral and social values.” Delayed marriage is neither a new issue nor it is fully settled one. **Develop** countries deal it successfully. Whereas, developing countries are still struggling. Unfortunately, Pakistan is also one of them. Main causes behind delayed marriages are higher educational purposes, financial stability, finding perfect match, Family burden, relationship traumas and also societal norms that leads to less marriage opportunities, emotional isolation, issues in biological cycle, prioritize family over personal life, zero of commitment and trust, health issues in family marriages.
