

Pakistan is facing a new wave of terrorism. A report from PICCs released figures of casualties in 2025 by terrorist attacks. They are worrisome and need immediate action against it. Mostly KPK and Balochistan are targeted by terrorist groups. Recently, a bomb blast in Akora Khattak, killing a religious leader of TUIS and other people. Similarly, terrorist attacks were carried out in Bannu when two vehicles blasted through the gates of Bannu Cantonment, killing 10 people & leaving many injured. All these attacks link back to Afghanistan, our immediate neighbour. Pakistan needs to prepare a counter terrorism plan & have a serious talk with Afghan Government to tackle the challenge of terrorism.
