

Q. 2. Distil the passage into a précis and suggest an apt title. :

Homi K. Bhabha, a prominent postcolonial scholar, advances a profoundly philosophical yet grounded concept of nationalism, positing that "Nations, like narratives, lose their origins in the myths of time and only fully encounter their horizons in the mind's eye," thereby highlighting the complex interplay between the imagined, the mythical, and the material in the construction of national identity. Nations, like narratives, are constructed through historical contingency, shaped by ethnic obsessions and regional affiliations that often obscure their origins. As a result, national identities can become rigid and exclusionary, antagonizing the notion of humanism envisioned by ancient philosophers like Socrates and Plato. This idea has implications for our understanding of humanism, a cornerstone of intellectual traditions from Goethe and Rousseau's emphasis on the universal human experience to Al-Ghazali and Ibn Rushd's advocacy for reason and compassion as bridges between cultures. Al-Ghazali's "The Alchemy of Happiness" strikes a balance between promoting local identity and warning against provincial, insular nationalism, making him a votary of cultural exchange and understanding. He advocates for an evenhanded approach, balancing love for one's land with justice for all citizens. In "The Revival of Religious Sciences," Al-Ghazali emphasizes balancing universalism and particularism, recognizing that national identity must be tempered by justice and equality. By promoting inclusive citizenship, Al-Ghazali offers an antidote to exclusivist nationalist ideologies. By exploring the intersections between nationalism and humanism, Bhabha's work also encourages us to think critically about how national identities are constructed and imagine new forms of global citizenship prioritizing shared humanity over narrow national interests. However, the rise of nationalism has often led to a narrowing of perspectives, prioritizing regional affiliations over universal values, resulting in a stringent and macho form of patriotism that stifles dissent and creativity. Like a chameleon, nationalism can adapt and change, often blurring the lines between patriotism and xenophobia. Altogether, nationalism is not a bane, its mixed benefits over the last century have been a double-edged sword, yielding a staggering array of positive and negative consequences. On one hand, nations have become increasingly aware of the need to align themselves with pluralism and egalitarian schemes. However, the desire to dominate, as exemplified by the German geographer Friedrich Ratzel's idea of organic borders, continues to have a silent appeal, often manifesting in bizarre and violent forms, such as the recent bloodshed in Palestine and the earlier Bosnian massacre. This scary trail is long and hard to absorb, especially when democracy itself has been exposed as a mere façade, leaving many to blurt out frustrations and disillusionments. As the philosopher Allama Iqbal aptly put it in his famous poem, "The Devil's Parliament," democracy is merely the outer crust, while the essence is imperialist. Iqbal's words ring true, warning us against the uncritical subservience and adoration of nationalism, which can lead to historical myopia, strengthening dictatorial hegemony and incarcerating the human spirit within the narrow confines of love for the land. Perhaps democracy is the safest carrier of the seed of nationalism, transporting it under the guise of economic equality. Still, weaker nations face the political bravado of the powerful leaving the meager nations to be content with mere paeans of love for border and territorial integrity. Imperialism planted the embryo of nationalism, abandoning the wretched children of the earth to fend for themselves, left to navigate the treacherous waters of self-determination. The power of nationalism is a potent form of Volksgeist - a term coined by Johann Gottfried Herder to describe a nation's unique spirit or character - that can be both unifying and divisive, depending on how it is wielded. In this context, a more frugal and nuanced approach to nationalism is needed, one that balances national pride with a commitment to universal values and human rights.

Q. 3. Read the following passage carefully and answer the questions given at the end.

(20)

The idea of wandering has anthropological, historical, and philosophical moorings. To some, it is an unconscious desire to substitute the powers of material life, beckoning us to establish our identity as sojourners of the earth, even as our ancestors, recorded and unrecorded history, may adumbrate that we are temperamentally nomads. We strollers search for shelters, food, and home. But would it be too elastic an idea to entertain unthinkingly that home is our destination, a dream place, where we should finally live and be free of external threats, often from man-made and natural designs of destruction. Can we stifle or eradicate our desires to control the geography and mindscape? Can we live in peace with ourselves without a rival as a neighbor? Scriptures glorify the essence of migration as a soulful activity that saves us from sangfroid existence and makes us vulnerable, a process necessary to ward off the place-dependent inertia. The expression "rolling stone" haunts the modern man. Modernity has

Title: Nationalism an Antithesis to Humanism

Nations just like narratives lost their origin over the period of time. In reality, nationalism is based upon ethical, historical, geographical affiliations as well as on myths. ~~Historically~~ As a result, national identities become rigid and often neglect humanism. Historically, many philosophers emphasized on bridging cultural differences through compassion and reason. The argued for global justice, equality and inclusivity. Nationalism has positive ~~as~~ ~~well~~ ~~as~~ negative impact of uniting people at regional level as well as negative tendency to divide people. However, it has <sup>primarily</sup> divided humanity. Moreover democracy ~~and~~ ~~not~~ is a

tool for imperialism. World needs  
to balance between nationalism  
Universal human values.
