Brain Drain :

Causes and Consequences

Brainstorm

The Outlines

Introduction:

- Hook
- Background Information
- Thesis Statement.

Main Body

A: Causes Of Brain Drain

1: Economic Factors:

- 1.1 Unemployment
- 1.2 Lower wages
- 1.3 Poor living Conditions

2: Social and cultural factors:

- 2.1 Political instability
- 2.2 Gender discrimination
- 2.3 Lack of motivation and awareness.

3: Infrastructure and work Environment factors:

- 3.1 Lack of proper infrastructure.

3.2 Lack of creative and attractive work environment.

4: Innovation and Collaboration Factors:

4.1 Lack of entrepreneurship.

4.2 Lack of global collaboration and opportunities.

B: Consequences Of Brain Drain

1: Economic Consequences:

1.1: Economic Crises

1.2: Loss of skilled workforce.

1.3: Reduce economic competitiveness.

2: Ineffective Education and Human Source:

2.1: Educational crises

2.2: Lack of educated people to drive innovation and prosperity.

3: Social and Health Consequences:

3.1: Health crises.

3.2: Reduce access to quality treatment.

4. Development and Innovation
Consequences

4.1: Reduce capacity for research
and development.

4.2: Over-reliance on foreign
expertise and knowledge.

3: Conclusion

The Essay

A famous statement by the Prime Minister of New Zealand Rob Muldoon in the 1980s commenting about the increasing exodus of New Zealanders leaving the country to work in Australia was, "New Zealanders who leave for Australia raise the IQ of both countries. Brain drain is neither a new issue nor is it a fully settled one. Developed countries are dealing with it successfully because of the better economic and political stability, providing the citizens with countless opportunities and bright future. Whereas, developing countries are still struggling with it. Unfortunately, Palestine is one of them. The main causes which are

responsible for brain drain include socio-economic evils: Unemployment, Overpopulation, Corruption, Poor-living conditions, low income, political instability. However gender discrimination and lack of motivation and awareness are also contributing to this alarming issue. These problems lead to Education crises, economic crises, health crises and over burden on foreign countries. These causes are not new in nature but their intensity is far greater in Pakistan, and with the passage of time these are increasing day by day. Unless these causes are addressed properly, this alarming problem of brain drain cannot be

solved. So serious and honest efforts are needed to solve this issue of Brain Drain.
