

Present System of education is responsible for some of our failures:

Present System of education is criticized by many experts in Pakistan. Experts argue that our system of education has failed to deliver quality ~~teachings~~ Education to the students. They further claim that our current education system is responsible for some of our failures. On the contrary, educationist believe that, inefficient democratic system not the education is responsible for our downfall. However, the data shows that Present ~~education~~ system of education has failed to deliver in Pakistan.

Experts highlight that, lack of communication skills in youth is failure of ^{our} education system. ~~The~~ Educational institutes are responsible to develop these skills in youth. In our country, the youth has struggled to communicate their problems, needs, and hurdles. In addition to this, ^{the} young people has also failed to maintain good

DATE: ___/___/___

~~both~~ relation with their colleagues, staff, and officers.

On the ^{contrary} ~~other side~~, educational experts argue that ~~the~~ educational institutes are only responsible to develop ~~the~~ technical skills not the soft skills. In our country, parents are responsible to teach them those skills. They believe that, it is the failure of parenting in our country not the education system. They further argue that as per Islam-mother is the first institute of child, who is responsible to develop these soft skills in their child.

However, I believe that in our country youth also lack the political, social and economic skills. These skills are necessary for any country to grow, Therefore, Present system of education has failed to perform in our country.
