IV- It is argued that information technology is a curse:

A

B

C

D

V- Information technology continues to shape a better future:

A

B

C

D

VI- Conclusion.

Thesis Statement :-

Information technology continues to play a vital role in human life. It is a blessing for various social, political and economic reasons. On the contrary, it is argued that information technology is a curse. However, information technology continues to shape a better future.

Argument:

- * T.S: Information technology is a blessing because it enhances social harmony in the society.
- * why i am saying this?
Social harmony is crucial for growth of any society, when people work together with greater cooperation and without conflicts then they bring efficient and positive outcomes for society.

Conclusion:

Hence information technology
continues to shape a better future
by enhancing social harmony in the
Society.
