

Social Media; Advantages and Disadvantages

Social media refers to culmination of various platforms such as Tiktok, Instagram, Youtube, Snapchat, and Twitter etc. It converted the world into global family, connecting friend and families online; it provides business opportunities and market for many entrepreneurs and influencers via Youtube, Instagram among others. Social media plays crucial role for students who get news and current affairs from platforms like Youtube etc. It is also source of entertainment in spare time. However, the use of social media has so many disadvantages. For teens and children it decline their productivity, many influencers often do frauds with customers. Currently, the spread of fake news is hot topic. It also leads to anti-state and anti-government propaganda. These problems can be cure with pragmatic solution.
