

* Precis practice :- (CSS - 2024)

Draft 1:-

Amidst the busyness of city life; green spaces symbolize peace and tranquility, colorful and flowery parks become the place for relaxation, and the greenery proves to be the home to the wild life. Moreover, parks facilitate the ^{family} father gatherings, sports and the need of an individual to relax. The green spaces also contribute towards environmental conservation through enhancement of air quality and protection from extreme weather events. But, the real challenge lies with the increased urbanization, and the need to maintain environmental protection. There is a dire need of creating parks, open air spaces and greenhouses amidst the excessive urban sprawl. It is a responsibility of every citizen to ensure the human progress, with a maintained balance to sustainable environment.

Final precis:-

In this era of growing population and urbanization, green spaces, open air parks, and the greenery symbolized peace, relaxing environment for therapeutic need, home to the biodiversity and an ideal place for family gatherings, sports and community engagement. Moreover, the green spaces also contribute towards environmental protection. But, the real challenge lies with the need of maintaining balance between urbanization

and environmental conservation. Thus, it is there
is a dire need of creating open air spaces and
parks ^{as} it is a shared responsibility of each individual
to ensure the balance between human progress
and environmental sustainability.

Title:- Importance of greenery amidst ^{excessive} urbanization.
