Pathways to Pakistan's Prosperity

"Pakistan's path to the progress lies in unity, discipline and faith," Muhammad Ali Jinnah. Prosperity means that all persons are entitled to basic fundamental rights like education, health and justice etc. Prosperity is one of the essential element of every state because provision of basic rights is the primary duty of every state. Pakistan is not a prosper state,

Pakistan is facing many issues such as political instability, poor governance and economic crisis. Pakistan has the potential to overcome all these crisis.

Pakistan's economic crisis can be resolved through the influx of dollars by increasing its exports. CPEC is also a path through which Pakistan can overcome of its economic crisis. Political crisis need to be solved because without political stability prosperity in Pakistan is mere impossible. If the issue of governance resolve, it will

lead Pakistan to a
Prosper state.

Reducing current deficit
is the first step towards
Pakistan's Prosperity. Deficit simply
means that Pakistan's imports
is larger than its export.
This is the main reason
of political crisis in
Pakistan. If Pakistan reduce
imports and increase exports
it will help to overcome

~~the~~ economic crisis. According
to 2024 economic survey
Pakistan's deficit is more
than 27 billion dollars. Hence
solving economic crisis through
reducing deficit will lead
Pakistan towards prosper state.

Empowering agricultural and
industrial sector is also a
pathway towards Prosperity.
Empowerment of agricultural
and industrial sector means
government give loans and
train them to use modern
technique. Large portion of Pakistan's
Population is associated with
agricultural sector. Their empowerment
will help in strengthening the
economy of Pakistan. In short,
