

Once Franklin D. Roosevelt, the former President of United States of America, said, "The test of our progress is not whether we add more to the abundance of those who have much; it is whether we provide enough for those who have too little." When countries when societies and nations fail the test of their progress, they make their way towards economic instability. When economies experience instability, it can lead to reduced economic growth, increased unemployment and decreased access to essential services. This, in turn, exacerbates poverty, making the lives of the people vulnerable. Therefore, it is a reality that It is rightly said that economic instability leads to poverty because when economies falter, families fall behind. The ripple effects of economic instability can be devastating, plunging millions into poverty. To cope with the problem of economic instability and developing effective
