

Essay Topic:

"Climate Change in Pak: causes & consequences"

Brainstorming

Climate change in Pak
Your points are fine but try to
avoid repeating points

Causes

Deforestation

Industrialization

Use of hydrocarbons

Electronics e.g AC

Burning waste

Consequences

Decrease rainfall

Global warming

Melting of
glaciers

Smog

Water scarcity

Biodiversity
Loss

Outline

A. Introduction:

1. Hook
2. General view
3. Thesis statement

B. Main body:

Causes of climate change in Pak

1. Deforestation

- 1.1 To build infrastructure
- 1.2 To build dams/industries
- 1.3 To generate paper
- 1.4 To produce furniture goods
- 1.5 To generate fuel

2. Industrialization

- 2.1. Economic purpose
- 2.2. Country's need
- 2.3. Produce goods
- 2.4. Revolutionization/Modernization
- 2.5. Promoting jobs

3. Use of hydrocarbons

3.1 For transportation

3.2 For domestic purpose

3.3 For commercial use

4. Electronics

4.1 Excessive use of electronics

4.2 Emission of CFCs

5. Burning waste

5.1 To avoid land pollution

5.2 Dumping industrial waste

5.3 Poor waste management.

Consequences of climate change in Pak

1. Decreased rainfall

1.1 water scarcity

1.2 Agricultural loss

1.3 Abnormal weather conditions

1.4 Domestic need

2. Global warming

2.1 Increased humidity

2.2 Rise in temperature

2.3 Ozone depletion

2.4 Acid rain

2.5 Biodiversity loss.

3. Melting of glaciers

3.1 Rise in temperature

3.2 Human activities

4. Smog

4.1 Industrial smoke

4.2 Undue burning

4.3 Lack of rain

5. Biodiversity loss

5.1 Deforestation

5.2 Harsh weather condition

5.3 Lack of habitats

6. Water scarcity

6.1 Lack of rain

6.2 Decrease in water levels

6.3 Extreme summers.

C. Conclusion:

General point of view and re-stating
thesis statement.
