

Pakistan and Smuggling

Smuggling poses a serious threat to Pakistan. It costs (Rs) Rs 3.4 trillion, equal to the country's about 3.5% of GDP. It also affects the local markets because of the unfair competitions. Moreover, smuggled goods are of low qualities which includes harmful substandard products.

Most of the smuggling occurs through the borders of Afghanistan and Iran.

~~As, ~~ As, alone Afghan borders costs Rs 1 billion annually, according to the Policy Research Institute of Market Economy. According to the Aaj English TV Pakistan faces Rs 10-20 billion every month due to Iranian diesel and Petrol smuggling.

Thus, Pakistan needs to curb the smuggling activities.

To ensure development and progress of the local products and for its strong and stable economy. Through the
