CAUSES OF ISLAMOPHOBIA

Try to articulate your ideas in a coherent manner

Islamophobia means fear, hatred, on prejudice against Islam and Muslims. Islamophobia did not begin overnight, it has deep historical roots from Medieval times. There are many cause of Islamophobia, but here are main ones. To start with, old stereotypes about Muslims has been made that Muslims are "uncivilized" and "dangerous" from colonial times. These old assumptions about Muslim are still rolling on the mind ~~of~~ of people without realizing. Secondly, media biasness by relating Muslims and Islam with conflicts and violence.

These negative stories brainwashes the minds of peoples, and unfortunately, people start to believe. Government actions like the Patriotic act after 9/11 or the Muslim Ban further spread the hate speech towards Muslims and people see Muslims as a sign of threat. Last but not the least, spread of fake news and hate speech on social media like platforms further exacerbate the situation. Behind these conspiracies, there are many non-islamic organizations and ~~the~~ some big powers who try to degrade the image of Muslims in the World. In a conclusion, Islam is the religion of peace and harmony. Muslim countries and Islamic organizations have to be on one page to solve this issue.
