

## Topic: Life in Temperate or Tropic Countries

replace the circled word

main idea is picked and discussed over all content is fine

need improvement in basic grammar write total words too

over all satisfactory 8/20

The temperate regions shows prominency of cold climate. It increases the energy levels in human ~~body~~ without doing any physical hardwork. It helps to fight against any ~~hurdle~~ and increases the level of optimism too. Different climates leave different impact on humans. A man puts little effort for his survival in a moderate weather like he builds a house and purchases his clothes as per the weather. He uses ~~trees~~ and coal for survival purpose and also arrange some nutritious food to maintain his energy levels. However, a man in tropics can survive in ~~open~~ air without much need of clothes or fire. He ~~can~~ easily arrange his nutritious food from earth. Human nature's response greatly depends on climate <sup>it is</sup> either hot or cold.
