A Visit to Cherokee

During the vacation, the writer wanted to visit some exciting place. His friend suggested Cherokee, a village in Oklahoma. The first place they visited was Qualla boundary, a famous valley depicting the ancient culture of Cherokee. Then they went to a shop with monuments and artefacts where they were welcomed by an English speaking man, who invited them on lunch as well. He told that the people there do other businesses during the off-tourist seasons. Then he told about the 'Bingo Weekends', starting on the Friday afternoons, where games like super Jackpot and Warrior game were a great source of tourist attraction. Their visit ended on a museum displaying the ancient art work and symbols of Cherokee.
