

Paragraph Writing

Climate change is the natural bomb that can burst on any country and results will be unexpected. Pakistani 40% population is earning from agriculture. When any climate disaster happens millions of people affected that are linked with agriculture and livestock. Furthermore, Pakistan economy is dependent on agriculture. 2022 Flood affected on 40 million of people and loss was \$30 million dollars. Due to global warming temperature is raising continuously. Pakistan has 7000 Plus glaciers in north polar region. These glaciers are melting and making the cause of flood. If we see world ice land, its melting 15% per decade. And raising the sea level of every year 3.4mm. And here is one more threat on coastal belt area specially Karachi, Dhaka, Mumbai. According to the FAO, by 2050 million ^{will} of people displace, they are living around coastal belt area. And world GDP decline 25% by 2050 and face the food crises.

In Criminology we studied the scientific nature of crime. Crime is only when happens, someone violate the law. when someone continuously observing the pattern, how he can omit the crime this behavior is called Criminal behavior. when anybody omit a crime when he get the opportunity this criminal is called occasional criminal.

Habitual criminal repeat the action of crime numerous time, and he can become a future professional criminal. In Islamic perspective of crime is divide into Hudood, Qisas and Tazir. In Hudood only eye witness is admissable. In zina 4 eye witness are require and in other cases 2 eye witness are require. If in some situation, conditions not met then state law will be applicable.

In Qisas, the offender will face the same punishment as victim bear it. And in

Tazir, those crimes that are not included in Hudood and Qisas it included in Tazir and state give the punishment according to the law of the state.

Aristotle was the realistic Philosopher. He was born in Sitarga. His father was a physician in royal court. In Childhood he goes in royal court with his father. Aristotle was inspired with Plato and Socrates. But Plato was an idealistic Philosopher and Aristotle Philosophy based upon Realism.

He Criticised on Plato idealistic theories like Theory of Education. Aristotle was the teacher of Alexander The Great. Later on, after the death of Alexander The Great he opened the Educational institute "Lyceum".

In his academy, there was the four stages of education. In the First stage, focused on virtues of moral and habitual behaviour.

In second Phase focused on gymnastic and in third phase focused on cognitive behavior.

Aristotle gives Theory of Justice as well.

In his theory, he describes the mode of justice. And his theory based upon constitution rather than ideal conversation. Aristotle was

the First Constitutionalist in History. He

Studied and Analyze the 158 constitution of different states
