- 3 - Increased poverty and crime rates

G. Economic losses to Pakistan due to its war on terror:

- 1 - Heavy infrastructure damage

- 2 - Lack of trust affecting
foreign direct investment
due to security concerns
- 3 - Rising defense expenditure
to tackle the threat of
terrorism

H. Ways to counter terrorism effectively:

I. Conclusion:

Pakistan has long been a victim
of terrorism. It has faced one of
the most prolonged and deadly
waves of terrorism in the world.
From US war on terror's after effects
of terrorism to post 2021 US
withdrawal from Afghanistan,
Pakistan has become a frontline

state in fight against terrorism. Due to this war on terror, people of Pakistan are traumatized and are facing mental health issues. Also, terrorism has been a primary cause of threat to Pakistan's sovereignty and political stability. Moreover, social life is disrupted in terror hit areas and people are forced to be displaced from their houses. Economically, Pakistan has faced heavy loss of infrastructure due to its war on terror. Investment from foreign countries has come to a halt due to security concerns. Therefore, Pakistan is the worst affected country from terrorism, its war on terror has impacted heavily on its economy, destabilized its politics, traumatized its citizens, and disrupted its social life.
