v Conclusion.

Women are the important part of every society. Women ~~were~~ depressed and discriminated in past time they were and performed only domestic role in society. Men were dominant in every society and women were inferior. Now, women have achieved ~~equal~~ status in society by incorporated in Politics. Women ~~broke~~ the myth of women weakness and deliteness. Women get developed like as men by incorporated in Education and literature. Women used their intellectual capabilities and in Science, Information technology and art ~~for~~ for their development like as men in these fields.

Women not only achieved development in economic and sports sectors but also defeated some men in ^{records of} sports and gymnastics.

Women have participated in every major sector of the country and performing their duties like as men. However, women are not more delicate and fragile but they ~~have~~ have got same status like as men in all major fields of the country. So, women have proved that ~~there~~ will be no gender discrimination in every sector.
