Problem Statement.

① Reforestation as Global Urgency.

"To Combat with multiple environmental issues such as global warming, pollution, soil erosion, loss of Biodiversity, increased risk of floods and Landsliding and socio-economic issues such as loss of natural resources (food, fuel and shelter), loss of jobs, and increased poverty, reforestation has become a global urgency."

② Pathway to Pakistan's Prosperity.

"Pakistan can lead to the pathway of prosperity by bringing reforms to its economy, educational sector, healthcare sector, political sector, social issues, governance, infrastructure and environmental sustainability."

Date:

③ Impact of Social Media on Teenagers Mental Health.

"Overusage and Reliance of teens on Social Media causes social isolation, unrealistic expectations, unrealistic comparison, lack of physical activity, disrupted sleep cycle, fear of missing out and cyber bullying. This makes them vulnerable to mental health struggles like anxiety, depression and lack of self-esteem".

④ Role of Technology on Modern Education.

"Technology enhances learning experience for students through adaptive learning, interactive and engaging content, mediums to improve various skills, access to teachers and content globally, digital content, enhanced communication, and efficient administration".
