Date: _____

Green Cities and Their Maintainance

Those cities which are decorated with parks and greenery give mental peace and relife from noise. These green sites maintain equilibrium between urban progress and environment. Culture events and other activities also take place in these green spots. They contribute in inhaneing air quality, reducing global warming and refreshment of mind. Besides these importances, there are many challenges in maintaining greenery along with increasing urbanization. In today world, cities are evolved and the idea is to form cities which are combination of human progress and environment preservation.
