⑤

It shapes perceptions, fuel narratives and influence global politics at large. Although it creates global awareness about escalation, by empowering human rights. It mobilize the international support for the weak & oppressed one. Pave the way for dialogues and debates. Media have negative role too which create manipulation, chaos, polarization due to false or AI generated videos or clips. Continuous exposure to violent content reduce the the empathy towards the suffered. It can be summed up that media at one hand making powers accountable and raises awareness, it can also ~~lead~~ ~~suppress~~ the silence the suppressed.
