- › Thesis Statement

- 2 Historical Overview of Pakistan's Prosperity.
- 3 Current scenario Pakistan's Prosperity
- 4 Significance of Prosperity
- 5 Causes behind the lack of Prosperity
- 6 Pathways to Pakistan Prosperity.

6.1 Economic Reforms & Industrial Revival

Pakistan should form economic reforms, transparent revenue collection, modernizing factories, supporting small scale businesses. This will help to grow in a self-reliant way.

Date: _____

Day: _____

6.2 Good governance and Institutional Reforms

Responsible and effective institutions, i.e. NAB and FIA are essential for Pakistan Sustainability. E-governance, depoliticising bureaucracy is also equally important.

6.3 Human Capital Development

Pakistan should focus on educating people and informing them about social rights and unlocking their immense potential by granting them suitable platforms.

6.4 Agricultural Modernization

Agriculture backbone of Pakistan economy, contributing 23.5pc to the national GDP. Therefore, advancing irrigation system, introducing climate-friendly crops and fertilizers is essential.

6.5 Harnessing Technology and digitalization

Promoting e-governance, AI, data analytics in industries can enhance transparency of governance and productivity of economic sectors.

6.3 Environmental Sustainability

Enforcing green policies, educating youth about environment with the help of national green skills corps, and launching large-scale afforestation campaigns can help Pakistan mitigate climate issues.

6.4 Regional Connectivity

CPEC projects already granting Pakistan immense opportunities in terms of industrial zones, transport networks etc. Similar cooperation with other organisations would help grow Pakistan.

6.5 Social Justice and Inclusive development

Empowering women and marginalized one helps in productivity and making society favourable and suitable for living. Ensuring equitable distribution of resources help bridging the gap between rich and poor.

7 Suggestion
