

1) Reforestation as a Global Urgency:-

a Hook

b Background

c **Thesis Statement:**

Reforestation has emerged as a global urgency because it is not merely an environmental necessity to combat climate change, biodiversity loss, desertification, and ecological imbalance, but also a socio-economic imperative to ensure food security, water conservation, poverty alleviation, disaster risk reduction, sustainable development and intergenerational survival.

2) Pathways to Pakistan's Prosperity

Thesis Statement:

The pathways to Pakistan's prosperity lie in strengthening political stability and institutional governance, fostering economic diversification and fiscal discipline, and investing in social development through education, health and inclusivity, as these interlinked reforms can transform structural challenges into sustainable growth and national progress.

3. Impact of Social Media on Teenagers' Mental Health:

Thesis Statement:

The impact of social media on teenagers' mental health is profound, as it provides opportunities for self expression, connectivity, and learning, yet simultaneously fuels anxiety, depression, cyberbullying, social isolation, and identity crises, making its balanced use and mindful regulation indispensable for adolescent well being.

4. Role of Technology in Modern Education:-

Thesis Statement:

Technology has changed modern education in a positive way by making learning more accessible, interactive and effective, and although it has some challenges like unequal access and overuse, its advantages are far greater than its disadvantages, making it a strong driver of educational progress.
