Later on these tools were used against human with the purpose of self-defense, which portray the one's act to secure his family and tribe is conveying message of threat to another human. When other human build some tools and utilized it for its survival portray a act of terrorism to another. As a same way. There are several arguments which shows that the act of one is a threat for other. Islam is a religion of a peace. It pushes people to live with harmony, love, and peace. To guide people "Allah almighty" send their prophets on earth for their guidance. In which one of them was prophet muhammad peace be upon him. He started preaching of islam to call people towards right path and get rid of false human made gods.

Prophet muhammad went to Mecca to call people towards islam and this act and Religion perceived the act of terrorism and violation against their religion over it they started attacking and prophet's mosques.

During initial days of preaching prophet tried to call people towards islam in makkah, his good intention for the people were perceived a act of terrorism for other religion over it they act harshly. Hence, One's evil good act for other is perceived a bad act for others.

A bull was sleeping near shop and a ^{bee} ~~fly~~ tried to irritate him by making noise in their ear. The continuous voice of ~~the~~ bee irritated the bull but not awake him. When bee hit the bull with his sting bull wakes up in pain and run toward the stall shop of vegetable. He not only hit the shop ~~door~~ but also destroyed it. In the same way. During 9/11 at Qaeda hijack the planes and hit the twin tower which resultantly triggered American freedom fighter attitude and started war on terror against the terrorist. American forces reached in Afghanistan and started eliminating terrorist groups. On the other hand, USA also warn other states either they come with USA or become against USA. The Act which USA adopted is a one's cabin of freedom fighter is one's cabin of terrorism for other. Hence one's intentions are bad for another.

13 June 2025, Israel attacked over nuclear facilities of "Iran" with a threat that Iran may achieve nuclear capability and it may use against Israel in future. Iran, a state under huge sanction, underdeveloped country tried to better his energy sector and medical facilitation by use of uranium which is globally allowed for around the globe. But this intention and fear of Israel attacked over its sites and eliminated it. This act for Israel is for freedom fight but it is for Iran is act of aggression from Israel side. Thus, Israel bombing is an act of terrorism.
