5. Conclusion

x ===== x

It was 3:00 am. Everyone was sleeping but him. He wanted everyone to sleep. He woke up and called his friend to join him at the roof top. They were not discussing the final year project or an assignment but taking crystal meth-ice drug. This elaborates the increasing use of drug in modern age. With the rise of digitalization and globalization, the use of drugs is can be seen in the societies. This issue is fuelled with various factors such as peer pressure and mental health issues. Online platforms and availability at door steps have contributed to substance abuse. ^{the} Significant use of drug has consequences on mental health, makes one isolated and disorganization. Where there is drug free society, there is less crime and domestic violence. With comprehensive strategies and pragmatic steps, the menace can be reduced. Public awareness and international cooperation in this regard will eliminate the increasing use of drug. The increasing use of

drug is pulled with numerous factors including peer pressure, stress and anxiety, digitalization and broken family leading towards severe consequences at large.
