Translation 2022

Every new era brings lot of matters with it which are not liked by anyone but they have to accept it. Sometimes it ^{happens} that nature ^{may be for} ~~test us~~ testing us present a lot of things in front of us with which we have no concern even we ^{do not} have any relation with it, but still we have to make it a part of our life and run through. It is still happening today. Every century ^{brings} such changes with it that were totally new to the previous centuries in comparison [Every century brings such changes with it that ^{were} ~~were~~ totally new as compared to the previous centuries]. The progress in art and knowledge blessed / gave ^{Wrong use of such with which} such lot of things which are used to call useless for the process of knowledge and economy. Nature gives us food and ^{along with} that regulates us to dispose ~~the~~ its ^{peels} properly. If it is not done properly then environmental pollution increases.
