D. Conclusion

Disaster Management and Government Preparation

Outline:

A. Introduction

B. Government Preparation is the Foundation of Effective Long-Term Disaster Management

1. Saves more lives through early warnings and evacuations.
2. Protects the economy and help businesses recover faster
3. Build stronger infrastructure with safer codes
4. Speed up the entire recovery and rebuilding process
5. Reduce long-term costs; Preparation is cheaper than rebuilding
6. Build public trust and encourages people to follow instructions
7. Prevents secondary crisis like disease outbreaks
8. Provides immediate financial security through pre-arranged funds

plz diversify your expression

9. Speed up the arrival and use of international aids
10. Maintains law and order to create a safe recovery environment
11. Ensures fair help for the most vulnerable populations
12. Preserves critical skills through training and education
13. Builds resilient communities that can help themselves
14. Secures stable supplies of food and clean water

C. Conclusion.
