## CS-2017 Translation

To discover our hidden flaws, it is important to see what our enemies say to us. Our friends always compliment us or ~~Agreed~~ with us because of their heart first, they do not consider our faults as faults or they hold ~~as~~ so dear ~~that~~ they hide them. with the thought of hurting. On the contrary, our enemies identify our hidden ~~flaws~~ from every nook and corner from each make a mountain out of molehill dimensions, either enemies can make it a mountain. But there is some originalities in that. friend ~~and~~ always grows virtues of friend ~~and~~ enemies always grows <sup>thankful to our</sup> faults of us. Therefore, we should be kind to our enemies because they inform us for our faults in this context, ~~an~~ enemy is prove <sup>about</sup> better than friends.

basic grammar is too weak  
not satisfactory at all  
very poor grammar and sentence structure 2/10
