

# (The dilemma of regressive democracy) in Pakistan: reasons and solution

DATE: / /

(I)

## Introduction:

### ↳ Thesis Statement:

Since its inception, Pakistan had faced the dilemma of regressive democracy. This regressive democracy had been backed by several reasons, including the absence of insightful leadership, extra constitutional adventures and futile role of judiciary. However, through reasserting civilian supremacy, judicial independence and strengthening parliamentary democracy and ~~electoral~~ process, Pakistan can become a democratic state in a true sense.

What do you mean by crude democracy

(II)

## Efforts of Pakistan's leadership for crude democracy:

1. Qaid-e-Azam and Liaquat Ali Khan strove hard for creation of constitution

No relevance of this paragraph

1- Objective resolution

2- 1st constituent assembly

2. Muhammad Ali Bogra formula somehow paved the way toward democratic supremacy.

Rather mention state of democracy in Pakistan

3- Adoption of Government of India act 1935 as an Interim constitution.

(III)

## Causes of democratic failure in Pakistan:

A- Democratic failure in Pakistan was primarily caused due to absence of top leadership

1- Death of Qaid-e-Azam

2- Assassination of Liaquat Ali Khan.

Not a Pakistan affairs paper

Give proper argumentation how democratic regression is prevalent in Pakistan

DATE / /

"Democracies may die at the hands of generals but of electoral leaders- presidents or prime ministers who subverts the very process that brought them to power". It has been professed by one of the greatest professor of science, "Daniel Ziblatt" in his remarkable book "How democracies die". However, the democratic upheaval of Pakistan presents contrasting yet bleak image of regressive democracy backed by illegal actions of both the generals and electoral leadership. Since its inception Pakistan had faced the dilemma of regressive democracy. The regressive democracy had been backed by several reasons including the absence of insightful leadership, extra constitutional adventures on futile role of judiciary. However, through reasserting civilian supremacy, judicial independence and strengthening parliamentary democracy, Pakistan can become a democratic state in true sense. The visionary leadership of newly emerged state tried their best to ensure democracy but several external and internal factors impeded their vision. The leadership vacuum after the death of Quaid-e-Azam and Liaquat Ali Khan marked the failure of democracy. In addition to this, extra constitutional adventures due to lust of power added to democratic failure. Furthermore, judicial support to extra constitutional adventures also affected the democracy. Along with it, political polarization also reinforced democratic dilemma in Pakistan. However, remedial measurements including decentralization of military, promotion of political pluralism, reforms related to rule of law & economic wellbeing can ensure true democracy.

Furthermore, the succeeding paragraphs would further edify the democratic regression in Pakistan.

The visionary leadership of Pakistan after the independence tried hard to ensure democracy and rule of law in the country. The first governor general of Pakistan Quaid-e-Azam Muhammad Ali Jinnah supported by president Liaquat Ali Khan ensured democracy by adopting Government of India act 1935 as an interim constitution. Though, the newly emerged state had to manage several urgent issues but their prime goal remained the democratic wellbeing. Liaquat Ali Khan, after the death of Quaid-e-Azam boosted his struggles for formulation of constitution for Pakistan. "The formation of first constitutional assembly" is a gleaming example of Liaquat Ali Khan's vision of the democratic state. In addition to formation of the first constitutional assembly, "The objective resolution" passed under his supervision set the precedent of constitution making which later became a part of the latter constitutions (1956, 1962, 1973). However, these struggles for constitution seemed lacking after the assassination of Liaquat Ali Khan. Hence, the visionary leadership of Pakistan tried hard to ensure democracy & rule of law.

In a nutshell, Pakistan, since its inception was challenged with democratic upheaval, several reasons enforced the democratic regression including leadership vacuum, extra constitutional adventures and judicial backing of the illegal acts. The early burden after the independence, failure of democratic institutions, Political Polarization and civil-military relations further amplified the regression of democracy. The current situation of Pakistan's democratic environment has been clearly depicted by a visionary writer and remarkable analyst, Dr. Iqbal Ahmed. According to him, "In Pakistan, the state has always been stronger than society - and that imbalance has crushed democracy." It is interesting to note whether Pakistan will make itself free from military influence or not? because Pakistan's democracy has been so fragile that every informal whisper echoes louder than civilian vote.
