

Test #1 "Increasing Use of Drugs in

Outline:- Modern Age."

Name : Mamoonah
Batch: RWP OB-73

I- Introduction

- i- Hook
- ii- Background
- iii- Thesis Statement

II- Understanding Drug Abuse in the Modern Context:

i- Definition and types of drugs (narcotics, stimulants, depressants, prescription misuse).

ii- Modern trends: Shift from traditional opiates to synthetic and pharmaceutical drugs.

iii- Global and national statistics indicating a sharp rise in consumption.

III- Major Causes of Increasing Drug Use.

1- Socio-Psychological Factors

i- Peer pressure and youth experimentation

ii- Escapism from depression, anxiety, and societal pressures.

iii- Lack of recreational facilities and emotional support systems.

2- Socio-Economic Determinants.

i- Unemployment, poverty, and inequality.

ii- Marginalization and disillusionment among youth.

iii- Urbanization and breakdown of traditional family structures.

3- Cultural and Media Influences.

- i- Glamorization of drug use in media and popular culture
- ii- Social media trends normalizing substance abuse.

4- Systematic and Policy Failures.

- i- Ineffective law enforcement and weak border control.
- ii- Corruption and nexus between drug mafias and authorities.
- iii- Lack of awareness and preventive health policies.

5- Globalization and Transitional Networks.

- i- Expansion of International drug trade routes.
- ii- Easy availability through digital platforms and dark web.

IV- Consequences of Rising Drug Use.

1- Individual-Level Impacts.

- i- Physical and mental health deterioration
- ii- Loss of productivity, ambition and potential.

2- Social Consequences.

- i- Family disintegration and social alienation.
- ii- Rising crime, violence, and public insecurity.

3- Economic and National Security Concerns.

- i- Burden on healthcare and rehabilitation infrastructure.

ii- Linkages with terrorism, money laundering, and organized crime.

iii Hindrance to socio-economic development and national progress.

IV-

Strategies to Combat Drug Abuse.

1- Policy and Legal Reforms.

- i- Strengthening anti-narcotics laws and border controls.
- ii- Cracking down on trafficking networks and money trails.

2- Preventive and Educational Measures.

- i- Comprehensive awareness campaigns in educational institutions.
- ii- Integration of drug education in curricula.
- iii- Media responsibility in portraying drug issues.

3- Rehabilitation and Reintegration.

- i- Accessible and modern rehabilitation centers.
- ii- Social re-integration programs for recovered addicts.

4- Societal and Family Role.

- i- strong family bonds and early intervention.
- ii- Community-based monitoring and support networks.

5- International Cooperation.

- i- Intelligence sharing and coordinated border surveillance.

ii-Participation in global anti-narcotics initiatives.

V. Conclusion.

Thesis Statement: In the modern age, the alarming rise in drug abuse stems from a combination of social pressures, economic hardships, cultural glorification, and weak policy frameworks, leading to devastating health, social, and national consequences; therefore only an integrated approach encompassing strict law enforcement, preventive education, rehabilitation, community engagement, and international cooperation can curb this menace and safeguard societal progress.
