

Give a detailed analysis of intersectionality of Gender with other social identities

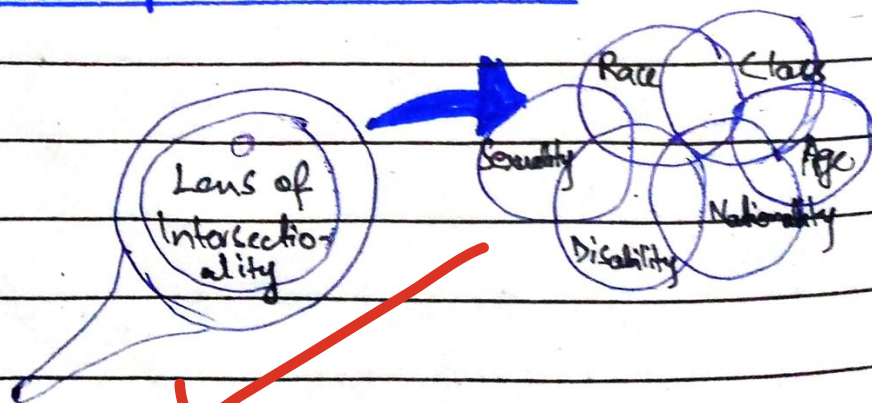

Outline

1) Introduction

2) Concept of Intersectionality

- Introduced by Kimberle Crenshaw
- Analytical framework for understanding how groups' and individuals' social and political identities result in unique combination of discriminations and privileges.
- Kimberle uses the concept to explain how gender-related factors interact with race, class, ethnicity, physical appearance and disability to create unique discriminations/hurdles for women and other genders.

3) Intersectionality as a lens to see where power collides

- Intersectionality highlights why the frameworks that are designed

to solve single problem fail to
~~some~~ benefit people facing multiple
 inequalities.

4) Intersectionality of Gender with Other Social Identities

a) Gender and Race

Exploitation faced by African Americans (Book: Women, Race and Class)

b) Gender and Sexuality
