## Start your essay with a strong hook

There are numerous progressive components expressed that social media contributes meaningfully in the democratic processes. It encourages youth and minorities communities to take part in policy making and national politics. It reviews on the manifesto, policies and ideologies of political parties to aware the people. Moreover, social media analyses the political scenario and development in the developed countries. It enhance awareness among common people regarding election process and voting rights. Moreover, it increases source of communication among leaders and common people through Facebook, WhatsApp, YouTube and X. Social media highlights the demerit, nepotism and corruption cases of democratic institutions. It addresses the grievances of people and the failure of governance system in rural areas. Social media provides coverage to injustice, violence and weak rule of law to raise awareness among people and provide proper information to politician about their areas. It encourages women to participate in governance and national policy making processes. Social media exposes the fraud, scandal, and misuse of power by politician. However, the it has never faced serious challenges which incapacitated the potential

and scope of social media in contemporary world.

The political polarization, elite capture and yellow journalism are the major challenges of social media.

It exacerbates hate speech, misinformation, fake news

mistrust, and manipulate the minds of innocent

people. Furthermore; It aggravates corruption,

violence, disparities and terrorist ideologies in the

society. Therefore; ~~Strategic policy measures are~~

necessary to mitigate formidable challenges of

Social media through effective policy reforms, awareness,

political engagement, anticorruption measures, vibrant civil

society and media.
