"Importance Of University Education"

The goal of the University is to train members of the society. It is the requirement of the social life which ^{makes} humans to adapt to the social environment. University neither confines to ~~the~~ certain professions nor ^{does} it produce heroes. It is not promising to produce poets; ~~no famous like Shakespeare, economist, critics, philosophers or experimentalists.~~ But it is a place which aims at cultivating human minds and intellectual personalities. University is a place, which ^{provides} education to an ordinary man in order to help them to figure out their opinions, thoughts, judgments and the way of expressing them. It helps them to achieve their goals by distinguishing between what is right and wrong, ~~that comes in its way.~~
