Claim that the signatory was between British and Afghan Kingdom is not applicable to the current Pakistan after partition without any solid reason. According to ~~Vienna Act~~, of article 36 of Vienna act the successor state ~~boundary~~ is Compel to accept the boundary marked by its ~~predecessor~~ ~~predecessors~~. So, Pakistan accept the Durand line as an international border as a successor state of British. The UK also accept the Durand line as an international border, US also accepted it. Due to this issue every ruler of Afghanistan ~~and~~ raise question on the legality of the Durand line as an international border — even Afghanistan itself accept it as de-facto border. Therefore, for complete solution regarding the Durand line, ~~a stable government~~ diplomatic negotiation between Pakistan and Afghanistan is mandatory — as ~~Pakistan~~ ^{it} is very difficult for Pakistan to engage at both eastern and western border.
