Title:

## Socio-Cultural Problems and Imperialism

<sup>Culture</sup> culture of a <sup>society</sup> society has two aspects: internal and external. It is <sup>socially</sup> socially constructed and has a link with human psychology. The <sup>occurrence</sup> occurrence of social change is attributed by modification in <sup>structure</sup> external structure. Socio-cultural problems can not <sup>be studied</sup> study without exploration of imperialism in third world. Imperialism in South-pole had produced classed based societies, which curbed the social and cultural progress. <sup>Similarly,</sup> Similarly, the cultural development of developing nations had compromised due to lack of political sovereignty. Hence, this political and social structure of former colonies generates the colonial mindset.
