

Digital distraction Paragraph (150-200 words)

The world's shift towards digital media is now turned into digital distractions. At the very start when ~~turning~~ ^{combining} ^{associating} educational mediums with advancements such as digital advancements, at that time it was normal in helping students in submitting applications, online lecture etc. It even reduced the cost from full to half and provided a more ~~scifiable~~ secure way of taking education while

staying at home. But excess of everything is bad and same is the case with this, the digital advancements now turned into digital distractions.

Day by day increasing number of multiple social media apps are not only wasting the time of student, but also capturing the innocent students in money traps. Involving people in trade that is online trade and fantasise them with rewarding gifts. In a country like Pakistan where a person belongs to an upper class still he is desired to earn more. Such apps for them not the hundred person but the ten persons who are trapped in their scam are more than enough. This is the worse effect of excessive use of social media where a person couldn't making anything but indebted himself.

For a student memes and reels are playing a role of those intoxicants that an enemy desires to kill his enemy like Queen Mary unskinned the protestants. To this extent these memes and reels
