

Q No. 7: Translate the following into English by keeping in view idiomatic/figurative expression?

Every era also brings much matters with itself which no one likes, but they shall be accepted. Sometime, it also happens that perhaps, nature does it in order to test us. Neither it is for our purpose nor we have any relation with it, but then it shall be made part of life. Today, it is also going. Every century is going to bring such changes which are quite fresh to previous centuries. Art and Science development gives much more to human which can declare waste by knowledge and economics act. Nature gives us fruit, but at the same time punctuates that kept the peels in proper way otherwise it will result in degradation of an environment.
