conclusion.

What separates a prosperous and flourished nation from the one that remains in struggle for centuries and how can that gap be filled? Well, The answer to this question is not this question is not difficult to answer ~~it~~ because history has seen many nations that were shattered in wars and brought to ruins and destroyed, such nations ^{have} again built up themselves ^{and} their countries from the pieces they were left with by just following certain strategies ~~and~~ dedication and loyalty ~~with~~ to their countries. Germany and Japan are the living examples to it. Moreover, USA is not an exception which is now a superpower ~~and~~ built by ~~some~~ slaves and runaways. Furthermore, the Imperialist China became Republic of China after Pakistan's establishment and started its journey. It has now an emerging power and has plans to influence other countries through its developmental program. Pakistan has many examples and elaborated strategies and techniques through which it can gain its status as developed and stabilized nation. Pakistan's prosperity is promised by focus on certain main departments including education, government, economical development, law enforcement and fair judiciary, infrastructure, rights preservation, different supporting programs and tourism and Cultural exchange.
