

The Value of Doing Nothing

Most of the evils in the world are the faulty conceptions of laziness. In fact they are triggered by misplaced and a lack of positive virtues. There is still plenty of energy in the world but the chances of utilization of it very narrow. If remaining busy in the criteria of goodness, the devil would have been the finest being in the universe. If politicians take breaks and do nothing, it can be beneficial. Furthermore, if leaders had taken a break instead of wasting time on attending Peace Conference in Versailles. They may have made better decisions without doing it. Similarly, religious conferences that only focus on sect matters rather than larger issues facing by Society. The devil, who is always busy in the proponent idea, that laziness. The author believes that it is time to recognize that

Sometime doing nothing can be productive
and better outcomes.
