The war of 1914 between USA and Japan pushed the world to fight war with Weapons of Mass Destruction. The USA used the atomic bomb on the cities of Japan which rises the abnormalities in the children. Because of this, the world support the evolution of United Nations to stop or prevent the future wars between the countries. The world is aware from the consequences of modern wars. However, the small-scale wars occurred between countries, and efforts were made to stop it through arbitration; but if war escalates, it could involve the entire world and pushed the world to unseen consequences. Similarly, the some unseen consequences of war are ^{increase in} poverty, currency devaluation, growing threat of extremism, increase in dropping out of students from schools, businesses migration, reduction in foreign aid-investment, and addition of harmful gases in the environment, and reduction in tourism activities. The world must reduce and solve their problems through peaceful means before the war occurred.

The first unseen consequence that affects the country is through poverty. The both countries sides ignore the need of the public and
