3.5) Training should be given to women related to handicrafts work.

3.6) Increasing tax free salaries.

According to the Prophet (P.B.U.H), Poverty leads to disbelief. Since 1947, Pakistan has been facing poverty issue due to external and internal issues. Pakistan's wealth was surrounded only 22 families due to which problems were increased.

The causes of poverty in Pakistan are; increasing over population, unemployment, IMF's strict conditions, cost of living, crisis of good governance, and worsening Climate Change conditions. However, these issues can be solved easily by creating new employment, part time work concept, no taxes on middle class and lower class, financial programs like Benazir Income support programs, tax free salaries, and training related to handicrafts work. This essay will highlight the causes and solutions of poverty in Pakistan.
