

Is Overpopulation the Root Cause of Pakistan's Underdevelopment?

Outline:

I- Introduction:

While overpopulation is a crucial contributor to Pakistan's underdevelopment, it functions as as an aggravating factor rather than the sole root cause, coexisting with poor governance, policy failures, and structural weaknesses.

II- Understanding the Nexus Between Overpopulation and Underdevelopment

III- How Overpopulation Contributes to Underdevelopment

A- Resource overuse leading to scarcity of food, water, and energy

B- Strain on infrastructure and slow capital formation

C- Overburdened education and healthcare systems reducing human capital quality

Ghazi Paper

D- Rapid environmental degradation
due to excessive population
pressure

IV- Overpopulation is a Symptom, Not the Root Cause

A- Poor governance and corruption
leading to misallocation of resources

B- Weak institutions unable to
implement population and development
policy

C- Flawed economic planning

D- Inefficient taxation, low investment
in human development

E- Resistance to reform due to
cultural, religious, and tribal traditions

V- Way Forward to Address the Challenges Responsible for Underdevelopment

A- Strengthen population control mechanisms
with education and service delivery

B- Improve governance, institutional capacity,
and policy execution

C- Promote cultural change through religious Leadership

D- Integrate environmental protection
with development strategies

VI- Conclusion Ghazi Paper

Sir, How to write Argumentative Essay?

Some mentors ask not to give "suggestions/way forward" in argumentative Essays?

Pattern 1

Intro

Argu-in favor

Counter-Argu

Conclude

Pattern-2

i) Intro

ii) Argu -

iii) Counter

iv) Suggestion

Can we add Suggestion
in Argumentative Essays
